REMRIN.AI: FINANCIAL ROADMAP & STRATEGY

Fiscal Year 2025-2026

1. THE "EGYPT ADVANTAGE" (Capital Efficiency)

Unlike standard US-based startups that require $250k+ for pre-seed operations, Remrin.ai leverages a strategic geographic arbitrage. By operating from Alexandria, Egypt, we access Senior Engineering talent and cover Founder Operations at ~20% of the cost of Silicon Valley equivalents.

- **US Burn Rate (Est): $15,000 - $25,000 / month.**
- **Remrin Burn Rate: ~$5,500 / month.**
- **Result: Your investment buys 5x the runway.**
